NEW YORK STARVING IN MIDST
PLENTY WITH INFLATED PRICES
EXCITING PUBLIC INDIGNATION

(By Associated Press.)
NEW YORK, Nov. 29.—New York City's fight to reduce the high cost of living began in earnest today with a boycott on eggs by thousands of housewives. This was followed with a direct appeal by the National Housewives' league to President Wilson for the regulation of the country's food supply, and meetings of federal, state and city officials, and investigating committees, as well as various civic organizations at which resolutions were adopted looking to a speedy readjustment of conditions. Coincidentally with the egg boycott there was a break in the poultry market, the price of turkeys dropping four to five cents a pound.

Virtually every branch of the municipal government is at work in an effort to find a solution to the food problem. A statement issued by Israel Feinberg, president of the board of coroners, declared that "the present high cost of living is directly reflected in an increase in the number of suicides, deaths from lack of proper nourishment and birth control."

TURKS INTERN
ALL AMERICANS

(By Associated Press.)
WASHINGTON, Nov. 29.—Word that the Turkish government has rescinded its previous agreement to allow several hundred Americans to leave the Turkish empire via Jaffa reached the state department today from Ambassador Elkus at Constantinople. The ambassador was informed that the Americans cannot be permitted to depart because of military necessity.

The practical internment of Americans is said to be an unprecedented situation which will require most delicate handling.

The American cruiser Des Moines, now at Alexandria, is due at Jaffa shortly, where, after unloading Red Cross supplies, she had been expected to take on the refugees. It is understood now, however, that officers from the vessel will not even be allowed to land to investigate conditions.

VERSAL SERVICE

(By Associated Press.)
BERLIN, Nov. 29.—The "Germania," evidently speaking authoritatively, announces the government reichstag leaders have reached an agreement on the "home army" question. The labor service bill, to be introduced tomorrow, is practically a new measure, but will remain a blanket bill so far as establishing the principle of universal service is concerned. The bill will include provisions for courts of arbitration to protect the rights of labor.

Retail Prices
Are Advanced

(By Associated Press.)
WASHINGTON, Nov. 29.—The retail prices of foods in the United States advanced 3 per cent between September 15 and October 15, making 16 per cent for 12 months, the bureau of labor statistics reports.

The culminating feature of the day's activities was the passage by the board of aldermen of a resolution providing a practical plan for relieving conditions.

At the same time, the department of health was instructed to make a thorough investigation of storage warehouses and the corporation counsel was asked to advise the board "as to the extent of its power as a municipal executive body, to the end that the threatened evil may be avoided."

Co-operating in extending the boycott on eggs were 700 motion picture theaters in the greater city. These houses will until further notice display the following notice on their screens:

"Smash the egg gamblers. Join the egg boycott. It's the man higher up, not the retailer. Practice economy in use of eggs. Buy only for aged, infirm and children. Decrease the demand and watch the price come down. It's up to you."

LONDON, Nov. 29.—Dispatches say the greatest uneasiness is felt in Athens among Venizelos adherents, who are numerically strong but unarmed. It is feared that a sudden outbreak of rioting would mean serious harm to them. Loyalists last night marked the houses and shops belonging to persons regarded as hostile with circles of red paint. The mayor's house was marked.

LONDON GLOOMY
OVER RUMANIA

LONDON, Nov. 29.—With the forces of the central powers in possession, according to German official reports, which hitherto have proved accurate with regard to recent events in Rumania, of Craiova de Arges, an important railroad terminus, 90 miles from Bucharest, and Girgul, on the railroad 40 miles southwest from the capital, anxiety as to the fate of Bucharest is greatly increased.

A danger, however, lies in the possibility of this retirement not being effected quickly enough to prevent an attack on their flank from Von Mackensen's forces at Girgul, from which point there is both rail and direct road communication to Bucharest.

It is impossible to doubt that the situation is viewed here with greatest misgivings. The question is being frankly asked whether the accession of Rumania to the entente allies has brought strength or weakness, and whether Russia has rendered the assistance which might have been expected from her, and if the allies might not have shown more initiative in the attack from Saloniki, whether the collapse of Rumania is due to any lack of unity in the allies.
